

Technical Group/DAS/IMSS/OL
WEEKLY STATUS REPORT
Week of 28 November to 02 December 1983

I. Major Activities During the Past Week:

A. Support to OL:

STAT ICS (Inventory Control System). A modification was made to the ICSGETCONIF interface procedure to reword a message which prints on the operator's terminal for better clarity. [REDACTED]

STAT Three production JCLs were modified to include user destinations for printed output. [REDACTED]

II. General Items:

A. Support to OL:

STAT TRAINING. [REDACTED] attended the "Logistics Orientation Course" on 28-30 November. In addition to hearing lectures on the various OL components, they made tours of the Printing and Photography Building [REDACTED]

STAT MISCELLANEOUS. In accordance with Logistics Notice LN-1-15, dated November 1983, the System Analysis Branch, has been renamed the Technical Group. The complete office designation for the group is now Office of Logistics, Information and Management Support Staff, Data Administration Service, Technical Group (OL/IMSS/DAS/TG). This group, composed of ODP careerists on rotation, reports to the DAS in OL and to the Logistics Systems Division (ODP/MISG/LSD) in ODP. [REDACTED]

III. Problems:

A. Support to OL:

STAT FARS (Federal Automated Requisitioning System). FARS is still having problems sending messages to DATEX. There seems to be a problem sending DLAN files. DATEX programmers were informed of the problem and have been trying to find a solution. [REDACTED]

PAGE 2

STAT AVRS (Agency Vehicles Records System). The AVRS database was unable to accept data this week. The database was moved to another share pack and more storage allocated. The problem persists. The IBM specialist for NIPS databases was informed of the problem.

IV. Upcoming Events:

None to report.
